

ALDOSIMONE DI ROSA

Frontend Developer (React) | Full-Stack aware · Italy · Open to US Remote
aldosimone@live.com · github.com/Aldosimone99 · aldosimone99.github.io

SUMMARY

Frontend Developer focused on building production-ready user interfaces with modern frameworks. Experience shipping real products (web and mobile) and developing full-stack applications with authentication and REST APIs, with strong ownership and problem-solving skills.

SKILLS

Frontend: React · Angular · JavaScript (ES6+) · HTML · CSS

Mobile: Flutter · Swift (iOS)

Backend & Data: Java · REST APIs · SQL / MySQL

Tools: Git · GitHub · Figma

PROJECTS

React Frontend Dashboard

- Business-oriented dashboard built with React
- Component-based UI architecture and state management
- API-driven data rendering

Full-Stack Web Application (Angular + Java)

- Full-stack web application with Angular frontend and Java backend
- Authentication, CRUD for posts, comments, and users
- Role-based authorization and REST API integration

moya – Vintage Photo & Video Editor (iOS)

Live on the App Store – <https://apps.apple.com/it/app/moya/id6749076005>

- Built and shipped a complete iOS application from scratch
- UI flows, media handling, and releases

Mariner Hub – Maritime Organization App (iOS)

Live on the App Store – <https://apps.apple.com/it/app/mariner-hub/id6743140374>

- User-focused organization app
- Feature development and maintenance

EXPERIENCE

Oceania Cruises – Deck Cadet

- Operated in structured, international teams, developed reliability, autonomy, and discipline
- Daily communication in English-speaking environments

Explora Journey – Third Deck Officer

- Worked in high-responsibility operational environments
- Strong decision-making under pressure

EDUCATION
